Profile

Detail-oriented Full-Stack Developer with experience in building scalable web and mobile applications using **MongoDB, Express.js, React.js**, and **Node.js (MERN Stack)**, along with **Next.js, Nest.js** and **React Native**. Skilled in developing secure authentication systems, RESTful APIs, and role-based dashboards. Committed to writing clean, maintainable code and delivering secure, high-performance, and responsive user experiences across web and mobile platforms.

Education

BS in Computer Science

COMSATS University Islamabad, 2022 – 2026. **CGPA: 3.49**

Experience

FRONTEND DEVELOPER | SHARKSTACK | MAY 2025 – OCTOBER 2025

- Built responsive React.js interfaces with reusable components, managing state and integrating RESTful APIs for authentication, data rendering, and form handling while collaborating with backend, QA, and design teams to deliver end-to-end features.
- Optimized UI workflows based on user feedback and analytics, improving accessibility, user satisfaction, and overall code quality.

Projects

HEALTH CLOUD | FINAL YEAR PROJECT (FYP)

[GitHub](#) | React Native, React.js, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, Git.

- Built responsive React.js web and React Native mobile interfaces with reusable components, developing and integrating RESTful APIs using the MERN stack for secure authentication, patient data handling, and dynamic rendering.
- Improved application workflows and usability based on user feedback, enhancing performance and overall user experience.

BYTVANCE

[GitHub](#) | [bytvance.vercel.app](#) | React, Node.js, Express.js, MongoDB, Tailwind CSS, JWT Authentication, Bcrypt, REST APIs, Cloud Deployment, Git, GitHub.

- Developed a full-stack blog application enabling users to create, manage, and publish rich content with seamless image handling and smooth user interactions.
- Implemented secure authentication and session management, and built a responsive UI with efficient APIs for robust content and user management.

PERSONAL PORTFOLIO

[GitHub](#) | [asifdev.vercel.app](#) | React.js, Tailwind CSS, Redux Toolkit, JavaScript, HTML5, CSS3, Vercel (Deployment), Git, GitHub.

- Developed a responsive personal portfolio website with clean, interactive UI and seamless navigation to showcase full-stack MERN and frontend projects, skills, and achievements.

ABITA

[GitHub](#) | [abita.vercel.app](#) | React.js, Redux, Redux Toolkit, JavaScript, HTML5, CSS3, Tailwind CSS.

- Built a responsive furniture shopping app with cart, favorites, search, and product filtering, using efficient state management for a smooth and engaging user experience.

Skills & Technologies:

Languages:

- JavaScript, TypeScript, Python, Java, C++, SQL

Frameworks/Libraries:

- React.js, React Native, Node.js, Express.js, Next.js, Nest.js, Tailwind CSS, JWT Authentication, Redux, Zustand, Shadcn-ui, Hero-ui

Tools & Platforms:

- MongoDB, MySQL, PostgreSQL, Prisma, GitHub, Docker.
